MICHIGAN COALITION
TO REDUCE UNDERAGE
DRINKING

2025-2026

WWW.PREVENTIONNETWORK.ORG/MCRUD

HELLO & WELCOME!

My name is Mike Tobias and I am the coordinator for the Michigan Coalition to Reduce Underage Drinking (MCRUD). MCRUD is a program of Prevention Network and was founded in 1996. Our mission is to reduce underage drinking and prevent other alcohol related problems. We achieve our mission by:

- Advocating for public health policy
- Establishing relationships with policymakers
- Educating the public
- Supporting local coalitions by providing education, information, skills, and strategies

I am glad that you have expressed interest in our organization and I hope you will choose to become involved with us as a MCRUD regional representative, MCRUD partner or MCRUD general member. One of our priorities is encouraging local coalition leaders to work with their local law enforcement to improve or start alcohol controlled buy initiatives. MCRUD also continues to be concerned about efforts to increase access and availability of alcohol as well as the promotion of alcohol.

Please spend a few minutes going through this packet. If you have any questions please call or email me and I will be sure to get back to you.

Sincerely,

Mike Tobias

ROOTED IN ACTION: BRIEF HISTORY

The Michigan Coalition to Reduce Underage Drinking (MCRUD) was formed in 1996 by several statewide partners. The original goal of the Coalition was to seek a grant from the Robert Wood Johnson Foundation and although Michigan was not chosen to receive the grant, MCRUD was born.

The founding members continued to meet in order to reduce underage drinking by supporting local and grassroots groups. During MCRUD's history there were over 20 local coalitions that received funding from Prevention Network and the Michigan Coalition to Reduce Underage Drinking.

Currently, MCRUD's efforts are supported by the Michigan Department of Health and Human Services, through local donations, and other fees for services that may include conference registration or types of events.

Celebrating 30 Years of Impact: MCRUD's Journey and Future

MCRUD exists to reduce underage drinking and prevent other alcohol-related problem.

Since its inception in 1996, MCRUD has been at the forefront of efforts to prevent underage drinking and promote healthier communities across the state.

MCRUD achieves their mission by:

- **Advocating for public health policy**
- **Establishing relationships with policymakers**
- **Educating the public**
- **Supporting local coalitions by providing education, information, skills, and strategies**

As we look forward to 2026, MCRUD remains steadfast in its mission to ensure that Michigan's youth have the support and resources they need to make healthy choices.

MCRUD STEERING COMMITTEE

PROVIDING DIRECTION AND FOCUS

The MCRUD steering committee typically meets monthly around the state to discuss coalition business. It is the heart of the coalition, providing direction and focus.

The committee determines MCRUD's responses to local, state, and national issues involving underage drinking.

The steering committee is comprised of the regional representatives and is MCRUD's most active members—giving them and their organization a greater voice in MCRUD's course of action.

MCRUD FAQ

1

DOES MCRUD RECOMMEND ONE SPECIFIC APPROACH, PROGRAM, INITIATIVE, SPEAKER, OR CURRICULUM?

To fulfill our mission, MCRUD uses various approaches which are appropriate based on the community's make-up and needs. We do not have a one-size-fits-all community approach or a specific "program" which we use everywhere. We do encourage communities to look at the environment and see if there are any changes that can be made that will help youth not use alcohol. We call this an "environmental change approach."

2

WHAT DO YOU MEAN BY "ENVIRONMENTAL CHANGE?"

Youth make decisions based on the environment where they have lived and currently live. Environmental change approaches generally deal with one of these four issues:

1. Where youth GET alcohol
2. Where youth USE alcohol
3. How youth GET AWAY WITH USING alcohol
4. Why youth THINK THEY NEED TO USE alcohol

3

WHO DOES MCRUD BELIEVE IS AT FAULT OR MOST RESPONSIBLE FOR UNDERAGE DRINKING?

We believe that pointing the finger or placing "blame" for underage drinking does not address the fact that a young person makes decisions based not only on their upbringing, but also the environment in which they are currently in. Blaming parents, or schools, or law enforcement, or the alcohol industry, or the teens themselves does not do justice to the complexity of the problem, nor does it assist groups in identifying solutions that will have a real impact.

4

WHAT DOES MCRUD BELIEVE REGARDING WORKING WITH YOUTH?

We believe you should involve youth at every appropriate level in every way you can. By this, we mean that youth can be a powerful advocate for change, as well as a wealth of information as to what the issues are in your community. We believe that any young person who wants to be involved should be included, regardless of their past decisions. This includes teens with a minor in possession tickets or teens in treatment and recovery.

5

DOES MCRUD WORK WITH OR ACCEPT FUNDS FROM THE ALCOHOL BEVERAGE INDUSTRY?

MCRUD does not accept funds or in-kind contributions from alcohol makers, distributors, or retailers or their trade associations, but we are willing to discuss issues with them and will allow them to attend our meetings to present their information. Please Click [here](#) to see our written policy on this issue.
