International Overdose Awareness Day

31 AUGUST

August 31 is recognized as International Overdose Awareness Day the world's largest annual campaign to end overdose, remember those we have lost to an overdose, acknowledge the grief of the family and friends left behind, and renew our commitment to end overdose and related harms.

The campaign raises awareness of overdose, which is one of the world's worst public health crises, and stimulates action and discussion about evidence-based overdose prevention and drug policy.

END STIGMA.
END SILENCE.
END OVERDOSE.

Host an event in your town, with your friends, or at your work. By bringing people together, even if it's just a few people, you can help achieve change, create space for conversation and healing, and spread awareness. See our [Event Support Kit](#) for tips on running your event. We'd love to help publicize and promote what you're doing, so register your event today.

OPIOID AWARENESS SURVEY

WE NEED YOUR INPUT!

The Greater Flint Health Coalition needs your help as we continue our work to address opioid misuse and abuse issues in Flint & Genesee County.

Your participation in this short survey will help enhance existing efforts and aid in the development of additional resources and pathways to access local opioid prevention and treatment services.

Survey participation is voluntary and is estimated to take about 5 minutes to complete.
